THE SECRET ORDERS OF THE UNITED STATES STEAMSHIP ALLIANCE.

A Vessel Fitted Out as a Whaler Suspected of Being Engaged in the Slave Trade. Claims Ignored by the War Department.

Our Consul General at Paris. Washington, May 16 .- It is learned that the United States steamship Alliance, which left New York last under orders to join the South Atlantic squadron at Rio Janerio, by way of the Mediterranean and Cape of Good Hope, is under orders to seize the schooner Emma Jane, if found on the high seas, or demand her if she be found in a neutral port to make prisoners of her captain and crew, put a prize crew on board, and send her to the United States with her plunder. I telbodask

The Alliance is also ordered to seize, by force, if necessary, whatever belongings of the schooner that may be found on the Island of Johanna, one of the Comoro group, off the coast of Mozambique and Zanzibar. These orders have been issued because the government is informed that the Emma Jane, after having been fitted out by the United States as a whaler, was taken by her master to the Island of Johanna, contrary to orders of her owner, and sold to Dr. Wilson, a former naval officer, but now a wealthy planter on said island. It is charged that Dr. Wilson employed her to carry sugar, and it is suspected, has engaged her in slave trade.

Nothing has been received from the Alliance except that she reached the island of Johanna, that her captain was well received, that Dr. Wilson assured him that he would do all in his power to assist him in his mission, and that the last he (Dr. Wilson) heard of the Emma Jane was that she was seized at Mauritius as unseaworthy some time ago. It does not appear that the Alliance has caught up with her.

Claims Ignored By the War Department. Washington, May 10.-The mandamus upon the secretary war, asked for by Sergeant McKinney, formerly of the Seventh cavalry, is to compel Secretary Endicott to take executive action on a claim referred to him by the third auditor of the treasury, but which action the secretary refuses to take. A law was passed March 3, 1885, to reimburse officers and men of the army for private property lost in service, but the law has never been executed and remains a dead letter statute. Secretary Endicott bases his refusal to act on the ground that the law is vague and indefinite, and must be amended by congress before action can be taken. A large number of claims under the act named. are pending, but all are ignored by the war department officials.

The New Western National Bank. WASHINGTON, May 10 .- The comptroller of the currency to-day authorized the Western National bank of New York, to begin business with a capital of \$3,500,000-Hon. Daniel Manning president, and ex-United States Treasurer Jordan, vice president. Mr. Jordan left Washington for New York this afternoon, to assume control of the new bank, during Mr. Manning's absence. It is understood that as yet Mr. Jordan's successor as United States treasurer, has not been determined upon. It is expected, however, that the selection for the position will be made within the next few days. Mr. Hyatt, of Connecticut, who has been men-tioned for the place, had quite a protracted interview with the president yesterday.

Hotel Men in Convention.

WASHINGTON, May 10.—Hotel men from all parts of the country are arriving on every train to participate in the annual convention of the Hotel Men's Mutual Benevolent association, which opens here to morrow. Our Consul General at Paris. Washington, May 10.—Mr. Walker, consul general at Paris; is in this city, and it is understood that he will not return, but that his successor will be announced as soon as

NEW YORK, May 10 .- Prince Leopold, of Prussia, arrived this morning from Roches ter, where he had a little jolt-up in the cars and took rooms at the Albemarle hotel. The train was two hours late and the loyal Germans who got up early to meet him were somewhat impatient. He was accompanied by Baron Rosenegg and the Count of Kanitz Mr. M. Jeaisch, of the German legation at Washington, met the prince and escorted him to his apartments in the hotel. He speaks English fluently. In conversation with a United Press reporter he said he would remain in the city until Saturday and sail for England in the steamer Eider.

A Molder's Co-Operative Foundry. CHICAGO, May 10.—The three molders' unions of this city are preparing to establish a co-operative foundry. Final arrangements will be made next Saturday night. COMING BACK HOME.

Cardinal Gibbous to Return to America on Account of His Poor Health.

BALTIMORE, May 10.—A clergyman in this city has just received a letter from Rome, in which it is stated that the health of Cardinal Gibbons has been greatly impaired by the numerous receptions and other ceremonies in which he has been constrained to participate while abroad. Besides this, the writer says that the climate has never agreed with the archbishop, and therefore he has concluded to return home as soon as possible. Another matter which causes the cardinal to hasten his return is the obligation made to Archbishop Cross, of Oregon, to confer upon him the pallium. This ceremony was to have been performed several months ago, but it was deferred when the cardinal was summoned to Rome. The question of the Knights of Labor and the church, the writer says, has nothing to do with the return of the cardinal, since all the necessary information on the subject could be obtained by cable

Preparations are making for a public re ception to be tendered to the cardinal upon his arrival here. The various Catholic organizations will escort him from the depot to the cathedral, where a canonical reception will take place according to the Roman pontifical decreeing the manner of welcome to be observed on the return of a cardinal. Immediately after the cardinal's return one of the rooms in the archepiscopal residence will be fitted up for the use of the pope should he ever visit this city. The vatican requires this of all cardinals. The furniture and hangings must be of red; in one corner of the room will be a throne with all necessary apdendages. The room will be called the "papal quarters," and must not be used on any occasion except that indicated above.

Funeral of Washington C. De Pauw.

NEW ALBANY, Ind., May 10 .- A delegation of about three hundred raen arrived today from Greencastle, Ind., including the faculty and cadets of De Pauw university, to attend the funeral of Washington C. De Pauw. The obsequies took place at 2 o'clock this afternoon at the De Pauw residence on the Charleston road. All business houses in the city were closed, and the public buildings were draped in mourning. The remains were followed to the cemetery by a large procession, including the order of Odd Fellows, and the Masons and other societies, the workmen of the American Plate Glass works, the De Pauw Rail mill and Woolen mills, the city officials and the De Pauw cadets acting as a guard of honor. The remains were placed in a vault where they will be guarded until final interment.

Talking Commercial Union, OTTAWA, Ont., May 10.-There is considerable talk among members of the house of commons on the question of commercial union with the United States, and this feeling is largely due to the manifest disposition of the American people toward some scheme for simple reciprocity. In the course of a few days the matter will be brought before the Dominion parliament as a substantive resolution, and a division will be asked for. The entire Liberal party, with a solid phalanx from the maratime provinces and Manitoba, are in favor of the measure, and it may be calculated upon to a certainty that within a week Sir John MacDonald and his followers, who stand by party rather than principle, will be driven to cover with their National policy pet scheme.

Passenger Train Wrecked. GREENCASTLE, Ind., May 10.-The Monon passenger train for Chicago was wrecked one mile south of this place about 1 o'clock yesterday morning. The engine went onethird of the way down a thirty-five-foot embankment. Both engine and tender lie wheels up, as they fell. The baggage car was also derailed. Engineer Green was found head downward between the engine and tender. He was badly scalded. Fireman Mikels saved himself by jumping. The wreck was caused by a misplaced switch. The railway officials claim it was opened and a stone placed between the rails by some one through malice.

WILLIAM O'BRIEN ARRIVES

THE IRISH PATRIOT SAFELY LANDED IN NEW YORK CITY.

An Eloquent Address to the Brave Editor From the Committee of Reception-The Vessel Detained Several Hours Outside the Bar on Account of a Dense Fog.

New York, May 10 .- The steamship Umbria, with Mr. William O'Brien, editor of United Ireland, and Bishop Ireland, of Minnesota, on board, was unable to cross the bar at high water this morning on account of the fog, and remained at anchor outside until 6 o'clock in the evening. When this news was communicated to the reception committee, who went early to the Cunard pier to greet the distinguished passengers, they at once notified John H. Starin to procure a steamboat for them that they might go down the bay to accord the welcome. On the arrival of the party at the Umbria the following address was read to Mr. O'Brien:

'NEW YORK, May 9. "DEAR SIR-On behalf of the Irish-American people of our great city, we welcome you heartily and cordially to New York. You are no stranger in a strange land, for beyond the brief period of your former stay in this country you have found lodgment in our hearts, and we welcome you again and again. We honor you for the years of service which have made your name a household word. Wherever the exiled children of our race are there is the name of William O'Brien respected. When, five years ago, you went down to Mallow, your native town, to stand as the Nationalists' candidate; your success caused dismay to Ireland's enemies and gave a death blow to the rotten borough system, so well adapted to the needy placemen who are ever ready to placate power and worship the golden calf. It is not necessary to follow your parliamentary career. In the light of the splendid service of the Irish party, no better eulogium is required than to say you performed your whole duty, disregarding every consideration of health and looking to Ireland's welfare alone

"But perhaps the highest claim you have on our affections is your position as editor of United Ireland in the darkest hours of almost hopeless despair. The clarion voice of Ireland's greatest journal rang out in thunder tones the sentiments that made the enemies of the people writhe 'neath the lash of one who never knew fear. The jurypacker paused in his foul work; partisan judges and every tool of tyranny cowered under the exposure that brought their infamy to light. Oppression and a free press can not co-exist, and the flat went forth that United Ireland must be suppressed and its editor imprisoned. In vain doth the heathen rage, and so, with renewed vigor, you carried on the warfare and tore the mask from the unspeakable orgies of the castle. Moral and political corruption go hand in hand, so, when in God's providence, Ireland shall gain the inestimable boon of self-government, a grateful people will not forget your services in ridding them of a cancerous plague that had cursed Dublin for years.

"And now, sir, in conclusion, we trust the mission you are engaged in will be eminently successful. In it you have our hearty support, and we wish you God-speed in your endeavor to save the people of Ireland from the sentences of death which alien landlordism would gladly consign them. Thanks to the National League, the indomitable spirit of our people in Ireland, and to the moral and National aid they obtained here and elsewhere, the battle is progressing gloriously, and the omen of certain victory in the coming time are clear to every discerning mind. We much mistake our brethren in Canada, if you do not receive from them a generous Irish welcome. Already the echo of the sympathies of representative Canadians through their parliament has been heard, and they have spoken with no uncertain words. This warrants us in expecting a renewal of the cordial and sincere expressions of moral support and such evident acts as will give an earnest expression of their friendly feelings to the cause you represent. This we do know, you have the kindest wishes of the Irish-Americans of New York, and we trust you will ever retain pleasant memories of them. You can assure Mr. Parnell and his colleagues of our fullest confidence in them and our determination to continue the struggle until the end shall crown the work in the restoration to Irelan of self-government and the freedom which we Americans justly regard as our dearest and most sacred possessions,"

Mr. O'Brien and the Methodists. OTTAWA, Ont., May 10 .- In the Dominion Methodist church last evening Rev. W. W. Carson, preaching to a congregation of 2,500 persons, touched upon Mr. O'Brien's con-templated visit to Canada: "Freedom," he said, "is only liberty to do right, and that form of so-called freedom which refuses to pay debts and which, under the mask of religion, forms the plan campaign—that is a plan of plunder—is a caricature of the fruth. In my conviction the contemplated attack upon his excellency by a professional agitator from across the seas is unjustifiable and so abhorrent that it behooves all good citizens and honest men to condemn it. I would exhort you, however, to refrain from passion and, from violence. Let our protest be such a display of loyal patriotism when his excellency returns as has never before been seen in the capital." At the conclusion of the sermon the choir and congregation joined heartily in singing the National anthem.

The Terrible Disaster at Bahispe-Cheerful Prediction of Local Scientists.

CITY OF MEXICO, May 10.—The government has received its first information regarding the disastrous earthquake on the 3d inst. at the town of Bahispe, in the district of Montezuma Sonora, by which 150 persons lost their lives. The earthquake occurred at 3:50 p. m. At the same time volcanic eruptions began in the neighboring mountains, lighting up the summits for a long distance. The prediction is made here by local scientists that Mexico is about to undergo a general seismic convulsion, and recent records of earthquake shocks show that there is widespread volcanic activity from one end of Mexico to the other.

Volcano Report True.

NOGALES, Ariz., May 10.-Later accounts received here tend to show that the report of a volcano having broken out in the Whetstone mountains is true. A gentleman who arrived from Sonora yesterday says there is strong evidence of volcanic eruptions forty miles southeast of Magdalena and it is said that one peak is throwing out large volumes of smoke, accompanied by streams of lava, smoke and fire can be distinctly seen from several points on the Sonora railway. As far as can be ascertained the volcano is in the Sierra Azul range. From the appearance of the country and the heavy earthquakes that have occurred it is believed that other volcanos will break out in a few days.

Damage and Death in Montezuma. HERMOSELLO, Mex., May 10.—The earth-quake caused terrible damages in Montezuma, destroying several villages, but those

in the northeastern part suffered the most terribly. Oputo had all its houses destroyed and nine persons were killed. Bahispe was utterly destroyed, 150 people being killed. The houses were leveled to the ground. A new volcano appeared, and its eruption destroyed all the timber and pastures of adjoining valleys and mountains. Further details are expected hourly."

A Cowardly Cutting.

CINCINNATI, May 10 .- A cutting affray occurred at Fourteen and Bremen last night about 11 o'clock, resulting in the stabbing of Emil Tritsch, a butcher, twenty-three years old, residing at 566 Race street. At the time mentioned Harry Seidler, aged twenty years, was passing by and was threatened violence by a gang of men standing on the corner. Seidler went into Charles Hauck's saloon, near by, and there met Tritsch, who is a friend of his. Seidler asked Tritsch to accompany him home, and as they stepped from the saloon the gang pounced on them. Seidler escaped injury, but Tritsch was stabled three times in the back. None of the wounds are serious. Tritsch says John Kauffman and Joe Eng were among his assailants, and either one or the other stabbed him. There were no arrests.

Hamilton, the lessee of the penitentiary, adjourned at 11:30 o'clock last night after two days' almost continuous session. Five Years for Manslaughter.

The sentence is five years in the state's prison. Herald, a resident of Miami county, quarreled with a neighbor by the name of David Condo, last August, and killed him several days later on the public highway. Public sentiment was very much against Herald at the time, and he narrowly escaped lynching.

Madison, Ind., May 10 .- About a week ago Jip Mills, a young man of Worthville, Ky., came to Vevay, Ind., and meeting Joe Hawkins, of the same place, steered him into Gabe Boswell's place, where he relieved him of his valuables. In the Switzerland circuit court Judge Friedly sentenced Mill to the penitentiary for two years.

Ir an ignorant Justice of the Peace can override the rulings of the Court of Appeals, what's the use of having such a court?

In the eyes of the "senior editor" of our contemporary, the "Republican's vindication" eclipies all things else in the gas controversy.

Cornellison has been re-jailed, and the good citizens of Mt. Sterling should see that he is kept behind the bars until released by the proper authorities.

OUR contemporary, the Republican, the organ of the old gas company, did lots of blowing yesterday over the termination of the gas fight. The old company and its organ may have something to crow over, but the people of Maysville are the big winnners by the fight, no matter how it has terminated. Competition may have been shut out temporarily by the sharp dealing of a few individuals, but the wind has been completely knocked out of the old exorbitant rates. While \$1.50 thousand is a little high, still it is not unreasonable and oppressive as the charges in former years were.

THE senior editor of the Republican makes the remarkable statement that in prices are the lowest. See them. m8tf the past twenty years he has "advocated every measure that was for the public good," In the same issue, in closing his article on the sale of the new gas company, he says:

"And then \$1.50 per thousand to 400 private consumers is better than \$2.25 per thousand to only 225 consumers, the number the old com-

In fact there's nothing does the public so much good-unless it is competition.

Under the the exorbitant \$3 00-a-thousand rate of the old company many poor people were unable to use gas, and would not be using it now, had not the new company, which was bitterly fought by the senior editor, knocked the bottom out long and idiotically tight. of the price.

THE editor of the EVENING BULLETIN Will not reprint any of his able articles on the gas controversy. He might be induced, however, to join a side show and pose as a prophet. Daily Republican.

No, it's not necessary. Private consumers are assured of gas for about ten years to come at not to exceed \$1.50 a thousand, just one-half what they were compelled to pay before the gas fight commenced, and the city will have its public lamps lighted for the same period at \$20 have again made their appearance in good a post per annum, just \$5 a post less than society. under the old order of things. Time works wonderful changes, you know, and perhaps at the end of ten years, there will be enough enterprise left to get up another company in case there should be things may be also promptly frustrated.

As to that other matter, the editor of the Republican ought to realize that a prophet is without honor in his own Try it. It has cured thousands. All country. The editor of the BULLETIN druggists. has not gone into the posing business.

Sweet, indeed, to those who in sickness and suffering have seen the advertisement of some sovereign remedy, which upon that trial has brought them from death's door. "The best thing I ever saw in my paper was the advertisement of Dr. Pierce's Golden Medical Discovery'" is again was the advertisement of Dr. Pierce's bruises, sores, ulcers, salt rheum, fever sores, and again the testimony of those who have been healed by it of lung disease, bronchial affections, tumors, ulcers, liver complaints and the ills to which flesh is heir.

The best salve in the world for caus, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains corns, and all skin eruptions, and positively cures piles, or no pay required. store Victims of the Mine Disaster, NANIMO, B. C., May 10 .- Thirty-five more bodies were found to-day. A shovel was found on which was written with chalk: "Thirteen hours and now dying in misery.-John Evans." This was a young fellow twenty-two years of age. Thus the men were evidently conscious thirteen hours after the explosion, and some may have survived five or six hours longer. Most of the bodies recovered had a peaceful look on their faces. The bodies were all found in No. 1 level. They had come as far as the half way switch and found a cavein and the air bad. They then set to work with picks and shovels and barricaded a passage to shut out the afterdamp. They returned to the air shaft where the fire damp had caught them and all succumbed. They had tried to barricade this passage also, but did not succeed very well. The poor fellows had made a desperate struggle for life.

Unclaimed Residue of an Estate. LAPAYETTE, Ind., May 10 .- Attorney General Michener has filed a suit against H. C. Tinney, clerk of Tippecance county, to cempel him to pay over \$1,800 claimed by the state. The money is the unclaimed residue of the estate of Annie Guimp, deceased, and the law provides that such moneys shall be paid to the state, to be held in trust for future claimants. Mr. Tinney claims that the law only requires him to pay the money to the county treasurer, and that official to the state. He wants to find out to whom he must pay it, so that it may get into court and bring a decision which can be used as a precedent. It is a test case.

"But, Mary," her mistress said in surprise and consternation, "what are you going off this way for? What is the trouble?" Wallace's Compliments to Whitelaw Beid. Gen. Lew Wallace as a lecturer on army affairs does not appear to be very highly im-pressed with the excellent qualities of the war correspondent as a truthful historian. His picture of Whitelaw Reid and his associates at the battle of Pittsburg Landing, after they had done what they could, as he thinks, to misrepresent him, is rather more graphic than complimentary. He was called out of his tent by a motley crew, which had just arrived, on foot, on lean mules or on broken down horses. They had a most pitiful tale to tell. The leader and the spokesman was the man who now heads the staff of The New York Tribune. This devoted company had been guilty, their leader explained, of telling the truth, something that it was not the proper thing to do under martial law, and they had therefore been "bunched" together and told to go. Would he give them something to eat for sweet charity's sake? He did so and they departed. "They were the nearest approach to Falstaff's army that I ever expect to see," said Gen. Wallace, by way of giving a final touch to his description of them. - Buffalo Express.

A Young Artist's Success.

A story is told in art circles of a young American painter who returned from a course of European study with not a cent in his pocket. His ambition was equal to the situation, and he hired a magnificent studio, filled it with choice stuffs and bric a brac, and proceeded to take fashionable pupils of the gentler sex, having borrowed his equipment from a fashionable house decorator, whose business he "boomed" at the houses of his pupils' parents in return for the loan of the bric a brac and stuffs.—Chicago Times.

DREADFUL LOSS OF LIFE AND PROP-ERTY IN HUNGARY.

Hundreds of Houses Destroyed By Fire. Opening of the American Exposition in London-Australia's Independence-Various Other Doings in Far Off Lands.

VIENNA, May 10 .- A hot sirocco blew the whole week throughout Hungary; parching vegetation and rendering it inflammable. At Toroczko three hundred houses were burned and four lives lost. The conflagation lasted two days. At Ruskberg a church and thirtyseven houses were destroyed. Many houses were burnt at the village of Meregyo. At Eperics all the churches and public buildings were destroyed and the cemetery was devastated. It is estimated that the total losses will exceed \$2,500,000. All the Hungarians and many Austrian insurance houses are involved.

The fire at Nagy Koroly was caused by a terrible storm of wind, which carried sparks to distant wood yards and set fire to them. Altogether 400 houses were destroyed and 5,000 people, deprived of homes, are camping in the open air. Since the recent fire at Eperics many inmates of a convent and school have been missing. At the time of the fire several girl scholars, were killed by jumping from windows.

READING, Pa., May 10 .- "There has been no decision by the anthracite ceal miners to strike on the 10th inst," said a Knight of Labor official yesterday, who has been traveling on business of the order through the Schuylkill region for two months past. They sent no notice to the companies of their intention to strike, but sent a formal petition for the increase in wages, with the request that a reply be returned by May 10. No ultimatum was promulgated, and whether the increase is granted or not there is no likelihood of a strike on Tuesday."

The Athletics Not for Sale.

PHILADELPHIA, May 10.—A representative of the United Press, saw Lew, Simmons, of the Athletic club, this morning and asked him if it was true that that club is for sale.
